note on fasteners: all becker hardware requires m4 type metric screws. M4 type screws in a variety of lengths are available from valendrawers.
*to calculate screw length needed, measure thickness of mounting substrate and add from 3 to 6 mm (1/8 - 1/4") for threading into the hardware**

becker part #	description	finish description	price	quantity	total

notes:	**page / order total**
*exceptions for threading distance: **01 4329 20** add 25 mm (1") / **01 4328 20** add 30 mm (1 3/16").	
becker hardware is produced in the becker works in herford, germany	authorized signature
